

# With Accessibility

With Accessibility, you can create content that is accessible to all users, regardless of their abilities or disabilities. This includes users who are blind, deaf, or have other physical or cognitive impairments. Accessibility is not just a nice-to-have; it's a legal requirement in many jurisdictions, and it's also a business imperative. By making your content accessible, you can reach a wider audience, improve your search engine rankings, and ensure that your content is usable by everyone.
